## Background Information

### Scope and Content Note

This collection (cataloged on Bib #1583365) is comprised of various materials collected by Dr. Rayford Boles Taylor. The materials include handwritten notes, correspondence, newspaper clippings, student papers and bibliographies, photographs, and negatives related to Northeast Alabama history, primarily historic structures/homes and the families associated with them. The majority of the photographs were taken for inclusion in a monograph on antebellum Alabama architecture that Taylor intended to write with JSU faculty member Dr. Louise Wingo; the book was never completed. Some materials were collected by Dr. Taylor's students for his Plantations of Northeast Alabama and other courses.

Dr. Taylor (1937-2002) was a faculty member of the Jacksonville State University History and Foreign Languages Department beginning circa 1963 until his death in 2002. Taylor's research interests included colonial America, Russia since 1855, and Northeast Alabama society and culture, especially during the antebellum period.
