Background Information

Scope and Content Note

This collection (cataloged on Bib #2293195) contains a chronological listing of all plays performed at Jacksonville State University, as far as known, from 1947 to the present. Materials created for these productions and donated to the Library by the Department of Theatre & Film (formerly the Drama Department) include photographs, slides, playbills, posters, flyers, and other materials. The bulk of the original collection materials date from the 1980s to the early 2000s. The original collection also included 6 ZIP disks; the Library was unable to access the files on this obsolete medium, and the labels on the disks showed their content to be duplicates of the slides. This disks were discarded. The donation also included 8 framed posters of still images from early 2000s departmental productions which formerly hung in the foyer of Stone Center Theatre; these images were duplicates of those on the slides and in the Photographic Services database, so have been discarded.

Supplementary digital items were also shared with the Library (eg, digital image files), and the Library acquired other digital images from the Photographic Services Department in order to build a more complete archive. The library already had holdings of brochure mailings, programs, and Drama Beat newsletters that have been added to this collection.

As of 2021, the Department of Theatre and Film intends to deposit materials with the Library for each new production; acquisitions for this collection are anticipated to be ongoing.

Provenance

Randall Blades, department head of Theatre and Film, donated the original collection of materials to the Library in June 2021. Ongoing acquisitions are expected from the Department of Theatre and Film with the performance of each new play.

Processing Information

Arranged and described by Bethany Latham, 2021.

Physical Condition

All items are in good condition. Some printed materials (flyers, playbills) were originally in a non-archival binder. The slides were housed in metal archival boxes and arranged by play; they have been left in their original containers and order; the Library has added enumeration. Obsolete media (ZIP disks) and duplicative materials (third copies of playbills, framed posters of images found in the slides on Photographic Services database) have been discarded.
