My Dear Father

In addition to the enclosed letter from
Manley - I saw him for a moment Saturday

in this place.

He came to see me at home in
order to have proper papers drawn up
and signed by all parties owning any interest
in the Patent. It seems that Posners -
Griffin and perhaps some others, beside
Dr Linder and Henry Montgomery have some
kind of an interest in it. Myself and
Manley are to have full control of the
sale of the "Gap" and are to receive one
third interest in the patent and proceeds
of sales - we of course paying our
expenses.

Am tolerably well only - was very
glad to hear thro a letter from Sallie
that you got home safely - the waters
on my "Route" were enough to make even
an "old stager" nervous. Tell Sallie
to write me Care Rankin House Columbus
Medical Supt.

and I will get in Saturday - It is very likely that I will spend Sunday in Troy. Can't say when I will be able to get home.

Have Henry Montgomery to fix up the papers properly and you can hand them to Sallie -

Affy Your Son

Walter

P.S.

Hope you decided to paint your Roof with waterproof Roofing paint - I told Mama about it : it is much cheaper - fill up the interstices better and is more durable.
